**Specialization and domain of interest****Title and abstract of the doctoral thesis (within 150 words)**

Title “The First Section of Musnad Abu Huraira (may Allah be pleased with him) from the Musnad of Imam Ahmad,” editing his ahadith, showing their accuracy and their degree of authenticity, authenticating them, and commenting on them when necessary.

The thesis dealt with Abu Huraira’s name, origin, and Islam, his sake to receive knowledge from the prophet, his excellent memorization of hadith, and his performance of what he carries from hadith. This is because he died in 59 HA long after the death of the prophet.

The thesis included a study of about one thousand two hundred hadiths of the Musnad Abu Huraira of the Musnad of Imam Ahmad. The work of these accounts was represented by editing the texts, authenticating them from the original books of sunnah, showing their degree of authenticity and judging their sanad through the biography of the narrators and the application of the known rules for the speakers. The study found that some of these hadiths are da'if (weak), but most of them are acceptable: sound and good.
